Node.js + face-recognition.js : Simple and Robust Face …

https://**medium**.com/@muehler.v/**node-js-face-recognition**-js-simple…

In this article I am going to show you how to perform robust face detection and face **recognition** using face-**recognition**.js. I was looking for a promising **Node**.js library that produces accurate …

Node.js + OpenCV for Face Recognition – Vincent …

https://medium.com/@muehler.v/**node-js-opencv-for-face-recognition**…

Recently I have added the face **recognition** algorithms from OpenCV contrib to opencv4nodejs, an npm package, which allows you to use OpenCV in your **Node**.js application. Today we are going to take a …

Car Plate Recognition System with Raspberry Pi and …

https://randomnerdtutorials.com/car-plate-**recognition**-system-with…

In this project you're going to learn how to build a car **recognition** system using a Raspberry Pi and **Node**-RED. For this project we'll be using a software called OpenALPR (Automatic License Place **Recognition**) that has an API you can use to identify car plates and car models based on an image.

Face Recognition with Node.Js - Stack Overflow

https://**stackoverflow.com**/…/16603440/**face-recognition-with-node-js**

If you are new to **node** then building a facial **recognition** system is probably a bit beyond your scope currently. I would suggest writing a way to recognize faces in a language you are more proficient with, then exposing it's features to **node** …

node.js - face detection with OpenCV and nodejs - Stack …

node.js - Nodejs OpenCV overlap image on face detection …

node.js - image processing / computer vision - body part …

node.js - Speech recognition, nodeJS

GitHub - sreuter/node-speakable: A continuous …

https://**github.com**/sreuter/**node-speakable**

node-speakable is a continuous speech **recognition** module for **node**.js. Basically, **node**-speakable is continuous waiting for you to say something and waits until you finally stopped talking. It then emits an speechResult event with an Array() including of your recognizedWords .

nodejs-speech/samples at master · …

https://**github.com**/**googleapis**/**nodejs-speech**/tree/master/samples

Google Cloud Speech API: **Node**.js Samples. The Cloud Speech API enables easy integration of Google speech **recognition** technologies into developer applications. Send audio and receive a text transcription from the Cloud Speech API service. Table of Contents. Before you begin

OpenCV tutorial: Computer vision with Node.js | …

https://community.risingstack.com/opencv-tutorial-computer-vision…

OpenCV **tutorial**: Computer vision with **Node**.js In this article, I talked about some interesting features of the popular OpenCV library used in **Node**.js. It is a real shame

interesting features of the popular OpenCV library used in **Node**.js. It is a real shame
that there is no official interface for **Node**.js, although there is a library **node**-opencv,
with less implemented features and an inconsistent API.

Build a Face Detection App Using Node.js and …

https://**www.sitepoint.com**/face-detection-**nodejs**-opencv
Build a Face Detection App Using **Node**.js and OpenCV … Facial **recognition** is a huge
topic for another time, but face detection is the subject of this article.

Google Cloud Speech API : Node.js example

https://codelabs.developers.google.com/codelabs/cloud-speech…
In this lab you will run a **Node**.js instance to send streaming and non streaming requests
to Speech API to transcribe recorded audio. What you need. To complete this lab, you
need: … Run **Node**.js sample to send requests to Speech API for speech **recognition**;
Step 1. If necessary, install the following software:

Image Recognition | TensorFlow

https://www.tensorflow.org/tutorials/images/image_**recognition**
In particular, we've found that a kind of model called a deep convolutional neural
network can achieve reasonable performance on hard visual **recognition** tasks --
matching or exceeding human performance in some domains.
